CAPABILITIES

See
www.utopia-tableware.com
 for full information regarding
 our capabilities.

DECORATION

Utopia Tableware offer bespoke decoration on ceramics, glassware and plastics. This is a fantastic way to promote a brand and can be used to reinforce the name of an outlet.

We offer many of these processes in-house, including:

- **Silk Screening** – can create decoration 360° on cylindrical glasses and flat-bed printing can be used for flat edges and bases of glassware. Designs can be up to 8 colours. Specialist paints are also available to give finishes such as thermo chromic. The glass is then fired to give long lasting durability.
- **Transfer Application** – for use on glassware and ceramics, more intricate designs can be achieved with a greater colour range.
- **Hand Decoration** – in-house hand decorating can achieve intricate designs, and often with a greater selection of colours.

LASER LINING AND CE STAMPING:

Utopia has in-house verification status, meaning we can government stamp and line our glassware, satisfying all European legal hospitality requirements. Choose lined glassware instead of additional measures, with different options available and with low volume commitment, we can produce to all your required needs.

BESPOKE SHAPE/DESIGN

We understand the need for bespoke items and offer a full bespoke product service. Utopia will design, re-design and re-envision until we have it absolutely right. We take care over practicality and ergonomics as well as aesthetics working closely with the customer every step of the way. We then manage the manufacturing process closely with our suppliers, inspecting and controlling the products we produce. Utopia nurtures every bespoke request from initial idea, to shape and style, all the way through to the end product, delivering satisfaction every time.

Designs for both glass and ceramics can be made by our design team from a brief, or artwork can be supplied for us to work with. Minimum orders are required on most decorations.

NUCLEATION

Utopia Tableware are world leaders in laser nucleation, and can offer every level of nucleation from standard nucleation to our most powerful Activator Max and Activator Performance nucleation, through to completely bespoke nucleation, unique to each customer.

Nucleation involves the etching of the bottom of the glass and is designed to increase the effervescence of the product and maintain the head of the drink, as well as improving the appearance of carbonated soft drinks when served.

TOUGHENING

Fully Toughened Glassware has been strengthened across its entire body making the glass resistant to impact damage at all points. This makes the glass stronger than regular annealed glass. When Toughened Glass does finally break, it will break into small fragments making it impossible to cause serious lacerations. This makes Fully Toughened Glassware the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

Anthracite

Bronze

Gold

CUTLERY PERSONALISATION

All of our Eternum cutlery ranges can be PVD coated in a choice of Gold, Bronze or Anthracite colourways. All of our Eternum cutlery ranges can be PVD coated in a choice of Gold, Bronze or Anthracite colourways.

Eternum cutlery can also be embossed, etched, or laser engraved with your unique logo. With a minimum order quantity of just 480 pieces spread across any number of shapes in a range, this option is accessible to all and makes a real statement in your table presentation.

SHOWROOMS

Utopia prides itself on having three exquisitely presented showrooms, a flagship Utopia showroom complete with our exclusive Nude presentation and a dedicated Carlisle showroom based at our Headquarters in Chesterfield, and a Utopia showroom at our London base in Holborn.

These showrooms are built with distributor partners and end users in mind, and are designed to inspire and excite.

We supply our market by understanding it better than anyone else; we work hard to make sure that we have the right products for the right task in every situation.

For 2016 this means expanding current ranges to meet demand, as well as introducing new and exciting trend led collections.

ICON KEY

NEW FOR 2016

Look out for our new and exciting collections being introduced in 2016.

VERY IMPORTANT PRODUCT

We have carefully chosen products to form part of our VIP selection, these items have been selected for their unique design, competitiveness in the market, or even must have items. Keep a close eye on these!

PASABAHCE PRODUCT

Many of our glassware items are from our exclusive supply partner Pasabache, based in Turkey these glassware items offer exceptional quality and design.

100% RECYCLED

Made from 100% Recycled Glass.

5 YEAR EDGE CHIPPING GUARANTEE

Utopia's 5 Year Edge Chipping Guarantee on a selection of ceramic products allows for free of charge replacement of chipping.

STACKING

Items that are designed to stack, when space is at a premium.

CUTLERY PERSONALISATION

A selection of cutlery can be personalised through colour coating, stamping, etching, laser engraving and diamond engraving.

CRYSTAL

A selection of Utopia's glassware ranges are made from fine Crystal, giving clarity and finer rims.

LINED & CE

Many of our glassware items can be government stamped and lined, to satisfy all European legal hospitality requirements.

FULLY TOUGHENED GLASS

Fully Toughened glassware withstands greater impact, making the glass stronger therefore increasing longevity, when it does finally break, it will break into small blunt pieces increasing safety. Ideal for outlets with glass related violence or those deemed by license regulations.

SUPER TOUGHENED GLASS

Designed for optimum strength and breakage when Super Toughened Glass does finally break it will break into roughly twice as many pieces as standard fully toughened glass. For superior strength and safety.

TOUGHENED RIM

Many Utopia Glassware items have strengthened rims to reduce chipping and breakage.

RIM AND FOOT GUARANTEE

Utopia's Rim and Foot Guarantee on a selection of products allows for free of charge replacement of breakages to the rim or foot of glassware.

LIFETIME CHIP WARRANTY

NEW for 2016, a Lifetime Chip Warranty on a selection of our glassware ranges. This allows for free of charge replacements on these items.

ACTIVATOR MAX

A laser etching nucleation technology available on a selection of our glassware items to enhance the appearance of carbonated drinks.

ACTIVATOR PERFORMANCE

A super nucleation technology to further enhance the appearance of carbonated drinks.

POLYCARBONATE

Polycarbonate is a very strong and virtually unbreakable plastic, the strongest plastic of all.

POLYSTYRENE

Not as strong as Polycarbonate, Polystyrene items are often used for shot glasses, where strength isn't as important.

SAN

Styreneacrylonitrile is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure.

POLYPROPYLENE

Polypropylene is lightweight and translucent in its material, used for some of our food storage items, Polypropylene provides an economical alternative to Polycarbonate.

POLYETHYLENE

Polyethylene is white in its appearance and the most economical of the plastic collection, used for some of our food storage items.

HIGH HEAT

Some of the products in our Foodservice collection are suitable for high heat contact, this includes food storage and utensils. This material can be used up to 375 degrees Fahrenheit / 200 degrees Celsius.

Featuring

Ron Arad

This outstanding new collection is the culmination of three years of study and creation, and includes design from the likes of Ron Arad.

Nude embraces the now and is unashamedly design led and unapologetically contemporary, offering affordable premium.

Nude is built on a firm belief that design is not about embellishment or style, but about the purity in the shape of an object.

BEER GLASSES

Featuring **NEW**

- 100** Branded Glasses
- 102** Craft Beer
- 102** Toughened Draft
- 102** Revival Beer
- 104** Stein

A wide selection of beer glasses covering stemware, tumblers and tankards suitable for all types of beers and environments.

2016 sees a number of introductions geared towards the growing trend for craft beer, ciders and bottled beer varieties.

The range includes fine quality crystal glasses through to unique fully toughened beer shapes such as Aspen. We are also delighted to include a range of branded glassware representing some of the country's leading brands.

Fully Toughened Glassware has been strengthened across its entire body making the glass resistant to impact damage at all points.

When it does finally break, it will break into small fragments making it impossible to cause serious lacerations.

This makes Fully Toughened Glassware the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

The Carlisle Portable Bar is ideal for use in hotels, pubs and theatres, anywhere that may require an indoor or outdoor bar facility on a temporary basis, or even aiding permanent bars in busier periods. Mobile bars allow you to utilise any space, cut queue times and maximise profits.

The New Carlisle Portable Bar has an ergonomic 2-step countertop, designed for ease of drink preparation and serving. The large 56" counter top with moulded in bar mat creates a durable and easy to clean surface.

Featuring a built in cutting board and a 15 gallon ice compartment with an integrated drain and water tap.

Portable Bar

CA755044 56 x 26.5" (142 x 67 cm)
Box of 1 H: 1230 mm

Side compartment has moulded in rails, that holds FoodPlus 12 x 18" Food Storage Containers, ideal for holding extra condiments such as napkins and utensils.

Unique sliding storage drawer, and a sturdy 5" non-marking swivel casters with locking brakes hold in the bar and its contents securely in place whilst in use.

With plenty of other storage space, to hold glass racks etc. this portable bar provides you with a complete hosting solution.

CARLISLE ICE CADDIES

Ice caddies provide maximum temperature retention with thick foam insulation.

CAIC222003 holds 91 kg (200 lb) of ice and has two swivel casters one with a brake.

CAIC225003 holds 57 kg (125 lb) of ice and has 2 swivel casters, one with brake, and is only 65cm high, ideal for when space is at a premium.

Cold Retention

Heat Retention

CAIC222003	With Ice Caddy Shelf	Box of 1	holds 200 lb (91 kg) of ice
CAIC225003	Holds 125 lb (57 kg) of ice	Box of 1	

CARLISLE DINEX

Durable double-walled construction with foam filling provides excellent thermal insulation for both hot & cold beverages.

Dinex Beverage Servers

CADX116003	1 L	Onyx	Box of 1
CADX116050	1 L	Midnight Blue	Box of 1
CADX116061	1 L	Cranberry	Box of 1

Dinex Insulated Stackable Mug

CADX119761	8.5 oz (24 cl)	Cranberry	Box of 48
CADX119750	8.5 oz (24 cl)	Dark Blue	Box of 48
CADX11948700	Flat Lid (2000 per case)	Clear View	Box of 1

CARLISLE TRANSPORTATION

Cateraid Dollies available with and without handle for easy handling. These dollies carry all of the Cateraids in our range. Both dollies come with heavy duty swivel casters to provide optimal directional movement and even move across carpeted surfaces.

Black Dolly

CADL300R03	27 x 20.5" (68 x 52 cm)	Box of 1

CARLISLE WAREWASHING – GLASS RACKS

Warewashing racks give you an efficient, durable & simple solution to your warewashing needs. Available in 5 different compartment sizes with multiple extenders there is a rack combination for every glass. Available all in Blue or with a top colour extender for easy recognition of compartment size, with each colour representing a size.

See page 189
for the easy Glass
Rack sizing guide to help
you select the right glass
rack combination for you
and your glassware.

Glass Rack Sizing Guide

To help figure out exactly what glass rack is needed for you and your glassware we have put together a simple guide to assist you.

If you have a sample or the measurements of the glass you want to fit into a rack, use the sizing guide opposite, follow the simple steps and the guide will tell you what sized glass rack is required.

If you do not have a sample of the glass, you can use our sizing guide online, by entering the code of the item at www.utopia-tableware.com

Glassware exceeding 9.5" (24 cm) in height will require more than 4 extenders, these can be custom made to order. Each extender will add approximately 1.5" (4 cm) of additional height to the rack.

For glassware exceeding 5.75" (15 cm) in the widest diameter, we suggest using a CARTP Tall Peg Plate rack.

Glass Rack Sizing Guide

Using the sizing guide below with a sample:

1. Place the glass upside down on the sizing guide lining up to the bottom left of the guide.
2. Look down the base of your glass so you can see the widest part of the glass.
3. Note the smallest square in which the widest part of your glass fully fits within without touching the sides – this square will indicate the compartment size you require.
4. Now take your glass and lay it flat against the page, lining up the lip of the glass at 0 on the vertical ruler.
5. Take note of where the base of the glass lines up to and select the next blue line you can see – this is how many extenders you will require.

Using the sizing guide below with measurements of the glass:

1. Take the widest diameter of the glass – this could be the foot, the bowl, the rim or the handle so check carefully.
2. Select the square where this dimension falls between – this is the compartment size you require.
3. Take the height of the glass – using the vertical ruler on the page select the next blue line after the height of the glass – this is how many extenders you require.

OVEN BRUSHES

Double Headed Broiler King

Carbon Steel wire bristles for very heavy use. Double-headed sturdy construction.

CA4029400 47" (120 cm) Box of 2

Grill Master with Carbon Steel Bristles

Carbon Steel wire bristles with metal scraper for easier removal of heavy debris. Suitable for heavy use.

CA4002600 31" (78 cm) Box of 6

Broiler Master with Stainless Steel Bristles

Stainless Steel wire bristles, one side with semi-stiff bristles and the other with stiff bristles for flexible use. Also comes with metal scraper for easier removal of heavy debris. Suitable for heavy use.

CA4029000 31" (78 cm) Box of 6

Pizza Oven Brush with Scraper

Crimped brass wire bristles and full length metal scraper in a low profile for cleaning in narrow spaces. Fits metal screw handle.

CA4029300 10" (25 cm) Box of 12

UTILITY BRUSHES

Polyester bristles for excellent chemical resistance. Multiple trim angles on bristles give better surface contact. Ideal for when cleaning with chemicals.

Utility Scrub Brush

CA4050102 20" (50 cm) White Box of 12

Utility Scrub Brush

CA4050114 20" (50 cm) Blue Box of 12

Utility Scrub Brush

CA4054104 8.5" (21.5 cm) Yellow Box of 12

Curved Back Utility Hand Scrub Brush with Tampico Bristles

Ergonomically designed with flared bristles to reach into edges and corners easily. Natural Tampico bristles are soft to medium whilst Polypropylene bristles are for medium to heavy use.

CA3650090 6" (15 cm) Box of 12

Curved Back Utility Hand Scrub Brush with Polypropylene Bristles

CA3650150 6" (15 cm) Box of 12

Utility Scrub Brush With Palmyra Bristles

Naturally medium to stiff Palmyra bristles with a hardwood handle. Ideal for use in Industrial environments such as service stations.

CA4549500 20" (50 cm) Box of 12

Black Duo Pan & Sweep Broom

Features a handy clip to attach the broom for easy storage. Serrated edge to comb the brooms bristles. Locks into place during use with an easy release for carrying.

CA36141503	36" (91 cm)	Box of 1
------------	-------------	----------

Deck Scrub Brush with Tampico Bristles

With natural medium to soft Tampico bristles, with excellent durability. Fits with tapered and screw handles for added flexibility. Ideal as a non-abrasive floor brush.

CA3619300	10" (25.5 cm)	Box of 12
-----------	---------------	-----------

Black Nylon Pile Brush

Nylon pile brush professionally rejuvenates carpet pile. Fits with tapered fitting handles.

CA3629703	18" (46 cm)	Box of 12
-----------	-------------	-----------

Wood Tapered Handle

CA4026100	54" (137 cm)	Box of 12
CA4027500	40" (101 cm)	With Metal Tip Box of 12

3-Piece Aluminum Handle with Standard Thread

NEW

CA4022400	60" (152 cm)	Box of 12
-----------	--------------	-----------

White Bottle/Jug Brush

Polyester bristles for softer cleaning of delicate items such as jars, jugs & bottles. Also suitable for items with a narrow neck.

CA4000102	16" (40 cm)	Box of 12
-----------	-------------	-----------

Polyester Coil Brush

Stiff polyester bristles twisted in heavy duty galvanised wire. Reaches between wire racks and coils of oven, grill, fryer and fridges. Also available with L tip for directional cleaning.

CA4015000	30" (55 cm)	Box of 12
-----------	-------------	-----------

Polyester L Tipped Coil Brush

CA4015200	23" (58 cm)	Box of 12
-----------	-------------	-----------

GRILL BRUSHES

Grill brick removes excess cooked on foods from grills. Plastic wrapping dissolves to eliminate mess.

Apply the grill pads to the grill pad holder for a complete grill cleaning solution.

Apply with cooking oil to protect the grill cure.

Fast and effective way to clean hot or cold grills.

-----------	---------------------	----------

Grill Pad Holder

CA4071200	5.5 x 4" (14 x 10 cm)	Box of 10
-----------	-----------------------	-----------

CARE ADVICE & INFORMATION

The first taste is with your eyes! So to make sure that you get the best return from the products that you select for your outlet, we have included advice on care and usage to make sure that longevity in service and appearance is enhanced. This will make sure that you receive the maximum benefit from your investment in Tableware.

SIMPLY INSPIRED SERVICE

CERAMICS CARE ADVICE

Storing:

Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.

Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.

Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.

Using:

Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.

Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.

Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low-grade steel, which being soft in nature increases the chance of metal marking.

Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

Washing:

Utopia's products are specially designed to withstand the rigors of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.

The use of an approved detergent is recommended.

For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.

Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.

Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.

Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

Metal Marking

Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.

Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner.

MELAMINE CARE ADVICE:

The correct handling and care of your Melamine buffet and table ware will enhance the appearance and longevity of the product in use. The following guide will assist you.

- Handle melamine dinnerware like any quality dinnerware.
- Use only plastic pads or plastic type bristle to remove dried food.
- Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.
- Do not use melamine products in an oven.
- Do not use melamine products in a microwave.
- Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.
- Do not use chlorine bleach.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guideline). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffet ware.

CUTLERY CARE ADVICE:

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting. Simple measure to reduce this and help maintain the quality of your cutlery:

Storing:

Never store cutlery where it can become damp, as this can cause corrosion.

Store out of direct heat, as this can cause the metal to mark.

Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.

Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.

Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

When pre-rinsing cutlery ensure all food debris is removed before being washed.

Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.

Always wash cutlery immediately, never leaving it with food debris present.

It is advisably to place cutlery vertically into dishwashers with the head up; and not too tightly packed together, this assists the water flow at the end of the cycle.

Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher, trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.

Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.

Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.

Wood handled cutlery is not suitable for cleaning in a dishwasher.

Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing, Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

18/10 – This is used for contemporary cutlery except knives; it contains 16–18% Chromium and 8–10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for.

AISI Code	Generic Name	Chrome	Nickel	Others	Subtotal	Balance
304	18/10 or 18/8	16–18%	8–10%	3%	29–33%	Iron

18/0 – This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic Name	Chrome	Nickel	Others	Subtotal	Balance
430	18/0	16–18%	–	2	18–20%	Iron

13/0 or Knife Steel – This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 13–14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic Name	Chrome	Nickel	Others	Subtotal	Balance	Extra Process
420	Knife Steel	12–14%	–	2	14–16%	Iron	Hardening

Storing:

Do not put cutlery into glasses.

Do not stack glasses that have not been designed to stack.

Using:

Do not pick up glasses in clusters.

Be careful to avoid contact with the beer tap.

Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.

Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glasswashers found widely in most businesses. To ensure the quality level of the product is it important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.
- Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.
- Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.

Information:

See below for a guide to replacement seals for our Preserve and Terrine collections.

Item Code	Item Description	Replacement Seal Code

PLASTIC BARWARE CARE ADVICE:

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drink ware is supplied with the verified CE Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- Polycarbonate Barware is dishwasher safe.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.

Polycarbonate drink ware is almost indestructible, hard and rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to assess scratching is needed as to offer the customer a perfect drink.

Utopia Tableware supply Plastic Barware in four different types of plastic:

- **Polystyrene** – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- **SAN (Styreneacrylonitrile)** - is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- **Polycarbonate** – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- **MMS** – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

Food pans available in standard Gastronorm sizes.

CREATIVE TABLE CARE ADVICE:

Creative Table includes an array of products all of which require different care to ensure you keep them at their best. See below for information in how to look after you Creative Table products.

Estrella Traditional Terracotta:

- Suitable for traditional ovens, hobs, microwaves & freezers.
- Terracotta is naturally fragile and should be handled with care.
- Terracotta is naturally porous, soaking in water should be avoided
- Terracotta is suitable as oven to tableware.

Fuji:

- As above.
- However, with increased strength and durability

Copper Presentation Serve ware:

- Please be aware copper will naturally oxidise over time.
- To maintain an optimum finish, hand washing is recommended.
- Using metal scourers or abrasive cleaners will affect the finish of your copper serve ware, to avoid this, wash in hot water straight after use with a soft cleaning sponge.

Stainless Steel Presentation Items/Barware:

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves.
- Galvanised items should always be used with presentation papers.
- Never leave in a damp environment for prolonged periods of time.

Wire Baskets & Presentation Papers:

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves
- Presentation papers are 100% biodegradable and can be discarded in food waste.

Cast Iron:

- Cast Iron is ideal for use in the oven and on stoves and withstands temperatures up to 260°C.
- Always use heat protective wear when handling the products – handles will become extremely hot.
- Never place hot items directly onto unprotected surfaces – it is recommended to use the Acacia Wooden Boards that are available with all Utopia Cast Iron pieces.
- For care of the Cast Iron Wooden Boards – follow the 'Acacia Wooden Board/Tray' care advice.
- Always use Plastic/Wooden utensils – metal may damage the surface of the enamel.
- Abrasive scourers may also damage the enamel surface – to remove tough residue soak in hot soapy water.
- Ensure completely dry before storing or stacking.

Bento Boxes:

- Not suitable for dishwashers, hand wash only.
- Not suitable for oven or microwave use.
- Abrasive scourers may damage the surface of the item – use a soft sponge and soak in hot soapy water for tougher residue.

Natural Woods:

- Store away from direct heat sources and direct sunlight.
- Hand wash in warm soapy water
- Do not soak in water
- Dry immediately
- Not dishwasher safe
- Bamboo drink paddles are suitable for glass washers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Sourced from a sustainable wood source
- Darwin, Acacia, Olive and Fir Wood will vary significantly in size and shape as these are natural cuts of wood.
- Restore Natural Woods with a wiping of olive oil

Slate/Granite:

- Being natural stones – our slate and granite items may vary slightly in size and texture.
- The characteristics of slate are that the edges can naturally chip and create sharp points – care must be taken when handling these items.
- To clean wipe down with a damp cloth and mild detergent.
- For Slate – any scratches can be treated with natural oil and this should be followed from time to time to keep the product looking its best.

Enamel

- Oven proof and Dishwasher safe
- For best results, after use soak in warm water, then wash gently with a liquid detergent
- Do not use abrasive cleaning pads or powders
- Items will chip if handled roughly

Trays:

- Plastic Black Non-Slip Trays:
- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Not suitable for dishwashers – wipe down with a clean damp cloth after each use.
- Do not leave submerged in water.
- Do not stack whilst damp.
- Do not overload trays, may cause accidental damage or injury.

Fast Food Trays:

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Fast Food Trays are suitable for dishwashers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Fast Food Trays have stacking lugs to accelerate drying and can therefore be stacked straight after washing without prior drying.
- Surface can become slipping when wet, extra caution needed.
- Always stack separately to other crockery in the dishwasher to ensure items do not damage each other in the cycle.

DISH DOLLY – COMBINATION LOADS

Carlisle Dish Dollies are ideal for transporting or storing crockery, with 4 swivel and 2 locking casters these dish dollies are easily manoeuvred with minimal effort. Both dish dollies come with a vinyl cover with easy opening Velcro side for hygiene storage.

Each stack will hold approximately 50 plates, see below for combination layouts:

**CAADD403**

Layout for 29 cm to 32 cm plates and 34 x 26.5 cm platters.

ADD403 Combination 1**CAADD403**

Layout for 25 cm to 28.5 cm plates.

ADD403 Combination 2**CAADD603**

Layout for 30.5 x 23.5 cm to 24 x 18.5 cm platters.

ADD603 Combination 2**CAADD603**

Layout for 21 cm to 24.5 cm plates.

ADD603 Combination 4**CAADD603**

Layout for 20 cm to 21 cm plates.

ADD603 Combination 5**CAADD603**

Layout for 30.5 x 23 cm to 24 x 18.5 cm platters, 14 x 20 cm plates and 14 x 30.5 cm plates.

ADD603 Combination 6**CAADD603**

Layout for 25.5 x 37 cm trays and 19 cm plates and 25.5 cm plates.
